DAF FT CF85.460

Space Cab ATe Edition

What does ATe do for you?

DAF Advanced Transport Efficiency (ATE) encompasses all product and service solutions that enhance the overall transport performance of DAF vehicles and reduce the environmental impact and the total cost of ownership.

ATE means the highest possible driveline efficiency, as a result of ongoing engine development, additional fuel saving measures, like speed limiter setting, engine idle shutdown, AS Tronic Lite software and comprehensive fuel information for the driver on the instrument panel.

Space Cab ATe Edition

DAF CF85

Low operating costs, best driver satisfaction and high reliability: the key development criteria behind DAF trucks for national transport.

The CF Series is characterized by superb driving properties and excellent manoeuvrability. A great deal of attention has been devoted to optimally match chassis design, steering, brakes and suspension. This, together with the high torque characteristics of the engines and comfortable cab design, makes the CF Series a joy to drive under all circumstances.

DAF FT CF85.460

Space Cab ATe Edition

Ideal to work in – Ideal to live in

The Space Cab combines compact external dimensions for national distribution with generous interior space as required for international haulage. Easy cab access, excellent visibility and an ergonomic working environment are just a few striking features of a strong cab concept.

DAF FT CF85.460

Space Cab ATe Edition

General features

- Auto engine stop 5 minutes
- Speed limiter setting 85 km/h absolute
- Actual fuel consumption information visible for the driver
- Driveline optimization with special AS Tronic fuel saving software
- Adaptive Cruise Control with Forward Collision Warning

What is Ate Edition?

MX Engine

- New pistons, piston rings and liners
- Fully encapsulated exhaust manifold
- Optimized fuel injection
- Reduction of mechanical and thermal losses
- MX Engine Brake
- Ultra clean EEV emission level

Aerodynamics

- Complete package of spoilers, side collars and skirts
- Fuel saving tyres

Fuel economics

- Driver training*

*) In countries where the DAF Ecodrive driver training courses are available

DAF FT CF85.460

Space Cab ATe Edition

Specification

Cab exterior

- Space Cab
- Side skirts
- Roof spoiler and side collars
- Cab colour Brilliant White (without striping)

Cab interior

- Comfort Air driver seat
- Auxiliary cab heater air
- FMS connector prepared
- GSM and GPS antenna

Driveline

- MX engine: 340 kW (460 hp)
- EEV emission
- 12-speed AS Tronic automated gearbox
- Rear axle ratio 2.69
- Adaptive Cruise Control with Forward Collision Warning
- Differential lock, ASR
- Automatic engine shutdown
- Extended service interval

Brake system

- MX Engine Brake

Electrical installation

- Dynamo 80 A, 2x 225 Ah batteries

Wheels and tyres

- Front axle, rear axle and spare:
315/70 R22.5 Goodyear RH II

Advanced
Transport
Efficiency
ATe

Chassis

- Wheelbase 3.80 m / rear overhang 0.99 m
- Standard catwalk
- Aluminium fuel tank 430 liter
- Aluminium air tanks
- AdBlue tank 100 liter
- Rear mudguards
- Spray suppression

Trailer connection

- Fifth wheel Jost JSK42C, height 150+40 mm
- Pneumatic trailer connection (palm type)
- Electric trailer connection + EBS, 24 V / 2x7 pins

Details as shown in the pictures differ from the actual vehicle specification.
