DAF Used Trucks

Lasting performance and quality

DAF Trucks N.V. is a wholly owned subsidiary of PACCAR Inc., focused on the development, production, marketing and sales of medium and heavy-duty commercial vehicles. As well as new trucks, DAF Trucks N.V. is also active in the re-marketing of previously owned vehicles, the majority of which are returned after 3-5 years on lease by mainly West European operators.

For decades, DAF has led the market in terms of innovative technologies and cost of ownership. It is renowned for quality in every detail, which makes the difference between a DAF and every other truck. DAF trucks are developed for uncompromising driver comfort. What's more, there's a DAF for you no matter whether you are in distribution, long-distance haulage, or whichever branch.
