## LIMITED EDITION Emerald

# New Generation DAF XG<sup>+</sup>

In 2028, DAF will proudly celebrate its 100th anniversary, a truly memorable occasion. The DAF Gemstone Collection is designed to lead up to this exciting milestone by introducing a number of Limited Editions. These editions are fully equipped with exclusive features and correspond with a distinct gemstone symbolising strength, durability, heritage, and craftsmanship.

Following the launch of the Sapphire Edition, the second gemstone in the collection is the Emerald Edition, characterised by its bold Forest Dawn green colour and sophisticated design. Every truck comes certified with a limited edition unique number, ensuring exclusivity for the owner. This continues to promote the New Generation DAF XG<sup>+</sup> and DAF's commitment to efficiency, safety, and driver comfort.

# Make a statement, Drive the extraordinary

The Emerald Edition perfectly blends boldness and sophistication in one unique truck that truly stands out. Featuring a striking green colour, special badges, and piano black high gloss accents, this Limited Edition commands attention and leaves a lasting impression. The interior is exclusively tailored to the Emerald, crafted with premium fabric materials and luxurious finishes. Additionally, owners receive an exclusive merchandise package including a matching duvet cover, a comfortable memory foam pillow, and a stylish leather toiletry bag. The Emerald Edition is limited to only 100 units, each bearing a unique number and certificate to ensure maximum exclusivity and prestige.

The Emerald Edition showcases a fully dedicated interior. Every element - from specially designed matching curtains and fabric-covered mattress to the stylish underside of the upper bunk and exclusive floor mats - is perfectly coordinated. Together they create a truly unique and luxurious atmosphere.
